"Just as Moses lifted up the serpent in the desert, so must the Son of Man be lifted up"

Fourth Sunday
of Lent

WELCOME to Epiphany

One of the greatest medical innovations in recent centuries is the development of the vaccine: if a doctor injects your body with a small amount of the disease you want to avoid (either an inert version of the disease or a sufficiently weak amount to prevent you from getting the full blown affliction), then your cells will produce the antibodies that will ward off the disease should you later come into contact with the real deal version of it. Vaccines are like tutors for our antibodies.

In John 3 Jesus does something quite unexpected: he evokes the image of that bronze serpent Moses lifted over the people as a cure for snakebites. The Israelites had to look at an image of the very thing that was afflicting them, and somehow doing so helped.

Yet Jesus riffs on that story to say that the Son of Man will be lifted up and if you look at his death, your problem with death will be solved.

Somehow when we cast our eyes on Jesus' death, we receive the gospel vaccine, as it were. But what that means is that the way a person gets "born again," is precisely by being crucified with Christ.

Please complete the envelope and place it in the collection basket or give it to a minister or priest.
